Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ On May 2, 2016, Consolidated Communications Holdings, Inc. ("Issuer") made a cash distribution of \$0.38738 per common share for a total of \$19,492,092 to its common shareholders of record on April 15, 2016.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ The distribution per share was \$0.38738. \$0.24845 per share is treated as a reduction to E&P and \$0.13893 is expected to be a reduction in the stock basis of each share. To the extent the tax basis in a share is less than \$0.13893, the excess over the basis in that share is expected to be recognized as a capital gain.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ When a cash distribution (or other distribution of property) is made by a corporation, it is treated as a taxable dividend to the extent of the current and accumulated E&P of that corporation at the date of the distribution or, in certain cases, at the end of the tax year in which the distribution was made. In order to determine what portion of this cash distribution should be treated as a taxable dividends versus return of capital/capital gain, Consolidated Communications Holdings, Inc. completed a computation of E&P as of December 31, 2015 with estimates of the E&P for the period ended December 31, 2016. According to this computation, Issuer had estimated \$0.24845 of E&P per outstanding share of stock. As a result, the distribution of \$0.38738 per share resulted in a dividend of \$0.24845 of E&P per share (with no effect on basis) and a reduction in basis of up to \$0.13893 per share.
